DETAILED ACTION

Allowable Subject Matter

Claims 1, 3-11, and 13-23 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 11, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a method of confocal 4-pi microscopy and a corresponding apparatus, the method and apparatus comprising, among other essential features, the positioning of at least one Toraldo pupil filter in the optical path of at least one of the illuminating waves and/or detection waves, the filter altering the location and/or intensity of at least one of the secondary illumination maxima and/or the secondary detection maxima, in combination with the rest of the limitations of the above claims.

With further regard to the above, please see the applicants' arguments dated September 17, 2007 in response to the previous Office action of record; in particular, that the prior art of record fails to disclose the use of Toraldo filters to alter the location and/or intensity of the illumination and/or detection pattern of the instant invention, in combination with the rest of the limitations of the above claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
